# INTRODUCTION

Going to Las Vegas is one of the best experiences a person can have. However, it can be difficult at times to figure out where to go and how to get there. This guide will help to alleviate all problems you may encounter. It will lay out all the ways to get around town and will also recommend places to go and which casinos to visit.

Once you find your destination, you will want to know how to get the most out of it. From getting free stuff and how to get comped to watching the best shows at a Vegas Casino and perhaps even getting to know some exciting people. If you're a gambler, you'll know that comps are the free rewards you get from a casino, simply for playing. These can range from free meals to free hotel accommodations. No matter what the freebies are, we want to teach you how to get them.

# GETTING AROUND TOWN

Taxis are an expensive way to get from place to place in Las Vegas. However, they are the most efficient and quickest choice of travel. The taxi system in Las Vegas is very organized and finding a cab to get to your next casino or show will be easy to find, unlike NY for example.

Buses are an inexpensive way to get around Vegas with one super advantage: it lets you do some sightseeing while laying back and enjoying the ride. They are mostly used on the Strip or to get to or from the airport to downtown. The only drawback is that they only run from 5:30 A.M. until 1:30 A.M.

The Las Vegas monorail runs along the strip and can be a fun way to travel around town. However it can be on the expensive side and only makes stops at certain locations. It also may take a little longer to get from place to place since it winds through town making stops at various hotels but it is a great way to take some nice pictures as you go through Vegas.

This is one of your best options to get from place to place on the strip. The casinos are located close enough together that getting to your next destination is relatively easy. It's also free, which makes it an even better option and with the gigantic buffet meals you get at most casinos, you'll need some walking done before really affecting the waistline and the wallet.

# DO'S AND DON'TS

This is one of your best options to get from place to place on the strip. The casinos are located close enough together that getting to your next destination is relatively easy. It's also free, which makes it an even better option and with the gigantic buffet meals you get at most casinos, you'll need some walking done before really affecting the waistline and the wallet.

Make sure your payouts are correct. Dealers are human and make mistakes. It's not uncommon for a dealer to give the wrong amount of chips when you win. Always make sure you receive the correct amount.

Know the rules of the game. Before you play a new game at a casino, make sure to know the rules first. Most casinos will hold lessons for certain games that are completely free to players. Take advantage of this free service and save yourself some headaches in the future.

Flaunt your winnings. Showing off or bragging about your latest score in a casino can lead to catastrophic results. There are thieves and scammers everywhere in the world and Vegas is no exception. If you win a large amount, ask for a security guard to escort you to the cage or your car. The casino will be more than happy to assist you and keep you safe.

# CASINOS TO VISIT

## The Wynn

Possibly the classiest Vegas Casino, the Wynn is a 5 star resort and casino with some of the best gambling in the world.

## Harrah's

Home of The World Series of Poker, Harrah's has become one of the staple casinos of this town and the one that most celebrities frequent.

## Stratosphere

This wonder of Las Vegas has the best views in town. Travel to the top for a 360 degree view Nevada. There is also a roller coaster at the top for those who seek even more excitement.

# TAKE ADVANTAGE OF FREE STUFF

## Free Bets

Some casinos will give away free bets in certain games just to get you playing on their casino. The most common is to get some courtesy credit to enjoy a few rounds of free slots. There are no stipulations on these bets and if you win, the money is

yours to keep, however make sure to ask about any restrictions before risking your money in any game.

## Learning the Games

In most casino hotel rooms, there is a channel that explains rules of certain games. It will also be your guide for better understanding what the casino offers.

## Coupon Books

You can find casino books full of free stuff in Las Vegas. These are not casino specific and have coupons for various hot spots in Vegas. Ask around as to where you can find one of these books and get free stuff, like drinks, free shows, and much more.

# COMPS

The best part of Vegas is getting comped. A comp is when the casino gives you something as a reward for playing there. Your loyalty is important to a casino and thus, you get free stuff. These gifts or rewards can be in the form of a free buffet or a free night's stay in one of their suites. To get comped you need to be playing a

good bit or win a large amount. The casino likes high volume players especially when they win.

You can also earn points by using a comp card at most casinos. These cards are free to obtain simply by asking a casino employee where to sign up for one. Any time you play a game, present your comp card and your play will be tracked. Even if you don't get anything while you're playing, you will get offers in the mail for free hotel rooms, and various other rewards to come back.

# CONCLUSION

Hopefully this guide will have helped you learn a little more about Las Vegas. Knowing how to get around and where to go will make your trip to Vegas simple and definitely more enjoyable. Knowing you can also take advantage of the free offerings that can be had at almost every casino should really contribute to your budget as well.

If you're like most people, you only get to visit this stunning city once in a while, so, getting the most out of it is of utmost importance. You don't want to spend half your time trying to figure out how to get around town and where to go. You also don't want to spend more money than you have to. Get as much free stuff as you can and maybe even walk away with more money than you came with.

As a final tip, remember that what happens in Vegas, doesn't always really stay there, so have fun but be safe and make wise informed decisions so your visit to Sin City is a memorable one!
